

General Parts Group Training Center Fact Sheet Denver Facility

General Parts Group is pleased to offer its 18 person training room to the Denver foodservice community. This highly flexible environment has both a training room and a conference room. Gas, electric and water connections are available and a 13ft extractor hood is due to be installed in 2021. Tables and chairs will be provided as well as a WIFI and a screen for presentation purposes. Best of all, it is free of charge. For a fuller technical description of the facilities available see below and Page 2.
